Experience Line

Gecko **smart**box

Smarter connectivity

Everything working together.

Always new

Today's spa, tomorrow's innovation.

With over-the-air updates, your spa evolves without intervention: improvements, new features delivered automatically and bug fixes.

Smarter service, faster fixes

Diagnose early. Resolve remotely.

Real-time spa data helps teams detect issues sooner and troubleshoot faster, often before a visit is even needed.

Stay connected, stay engaged

Build loyalty through every interaction.

Give your customers the consumable support they need throughout the lifetime of their spa, while driving recurring revenue.

Experience Line

Gecko **smart**box

Endless possibilities

Built to evolve, supporting ongoing enhancements, new features, and long-term scalability without hardware changes.

Proactive service capabilities

Continuous connectivity and live data enable early issue detection, remote diagnostics, and faster, more efficient service.

Data-driven development

Leverage real usage data to guide product decisions, optimize features, and continuously improve the spa experience.

Product	**Gecko smartbox**
Dimensions (L x H x D):	12.09 x 7.50 x 2.60 in
HS Bus:	4 (blue)
LS Bus:	2 (green)
GPIO:	16 (orange)
Power supply:	120V/240V 50/60Hz
Certification:	cULus CE
Available market:	Europe, North America, Oceania
