THE BEST MOMENT OF THE DAY

Maybe you've spent hours in a successful meeting,
Or played a gruelling five-a-side football match with your friends.
Perhaps you've been on your feet all day shopping,
Or out travelling to explore wonderful new locations.
All these things require effort.
They are the exciting yet small adventures of everyday life.
The ones that give you real pleasure, purpose and a
feeling of fulfilment.
As great as they are they can also be tiring.
Now is the time to turn an exceptional or a tiring day
into a perfect one.
The moment that refreshes you to face new challenges tomorrow.
Your Hot Tub Jacuzzi®.
It's not just a matter of hydromassage technology,
we're talking about real science that produces
authentic, all-round well-being.
It's the best moment of the day.

Jacuzzi

JACUZZI® BRAND IS AN ICON OF HYDROTHERAPY

Renowned for its performance reliability and ease of use, we set the standard by which all Hot Tubs are measured. While imitation may be the sincerest form of flattery, only 65 years of innovation can produce Hot Tub designs made to the demanding standards of the Jacuzzi® Brand.

Jacuzzi® Brand products are manufactured in 5 countries, enjoyed in more than 100 countries worldwide, and employ thousands of people around the world. Representing decades of innovation, design, performance and ease of use, the Jacuzzi® Brand is trusted by millions of customers globally.

BRAND STORY

When the seven Jacuzzi brothers emigrated from Italy to the United states, they had no idea that a pump they designed for orchards would revolutionise hydrotherapy in the home. And while the family's critical need to change the life of a child triggered this therapeutic invention, a desire for wellness pioneered an industry.

1956

Introducing the Hot Tub: Candido Jacuzzi invented the J-300® pump, the first portable hydrotherapy device to be applied to a household bathtub

1960

Jacuzzi® create and market the world's first integrated whirlpool bath, the 'Roman'

1970

First self-contained family-size Hot Tub is created

1980

New features that can be used indoors and outdoors are introduced such as waterfalls

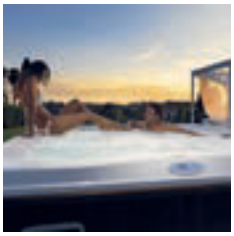

1990

First outdoor Hot Tub range

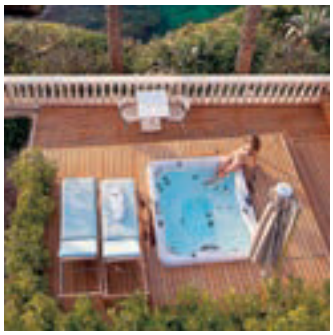

The experience of total immersion and top performance for a family Hot Tub

2000

New models for the hospitality industry

2018

New collection J-300™

2020

2010

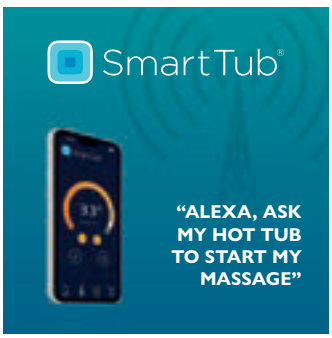

Jacuzzi® takes Italian Design to the rest of the world

2019

New Jacuzzi® Swim Spa collection: swimming, hydro-massage and aquagym

2023

HYDROMASSAGE

Some of the smallest daily rituals that you enjoy, can be more beneficial than you realize. Following a regular hydromassage routine, can improve your overall well-being by reducing stress and lower back pain, improving sleep and post exercise recovery, and alleviating restless leg syndrome, cramps, arthritis and fibromyalgia.

And it's just as easy to build into your daily routine, as taking time out to enjoy a cup of coffee!

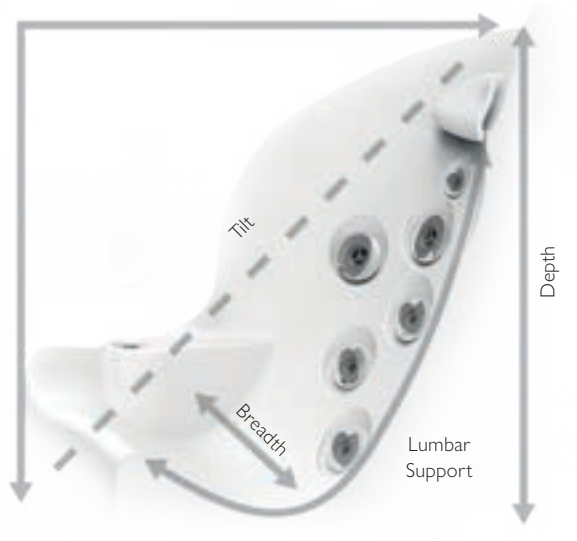

personalised massage

By studying the anthropometric dimensions of the 5th percentile of females and 95th percentile of males, we can design Hot Tubs based on the average dimensions of 90% of the population to deliver a personalized massage.

ANTHROPOMETRIC DIMENSIONS

ergonomic seating

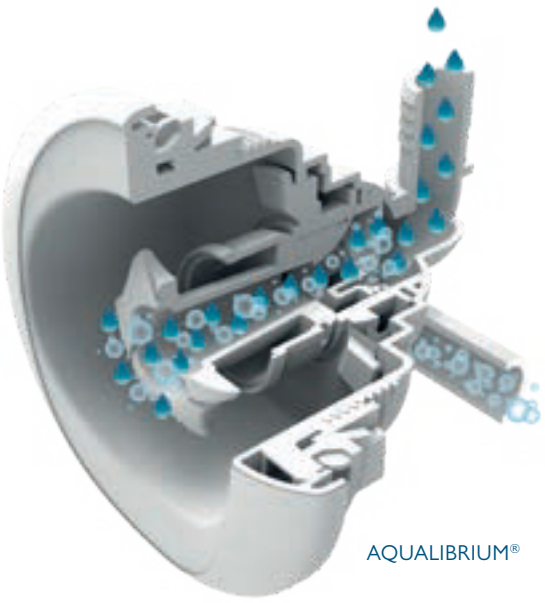

Seats designed to follow the contours of the body and recessed jets placed to perfectly match the muscle structure of the human form deliver a comfortable, premium hydromassage experience for most body types.

MUSCLE STRUCTURE JET CONFIGURATION

complete balance

Using the Aqualibrium® Formula, each jet is individually calibrated to deliver the perfect balance of air and water, then precisely paired with the exact pump-to-jet ratio needed to ensure a balanced experience in each and every seat.

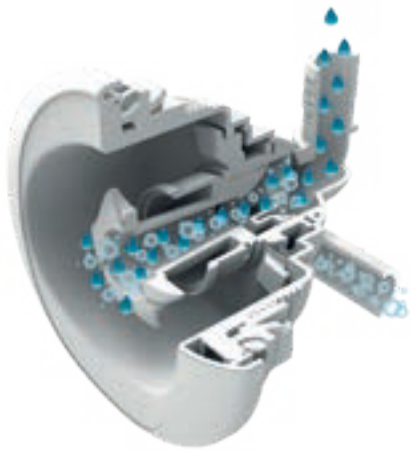

AQUALIBRIUM®

Hydromassage research supports the benefits of hydrotherapy for stress, lower back pain, sleeplessness, post exercise recovery, leg cramps, arthritis and fibromyalgia.

Aqualibrium® The perfect mix of air and water.

Exclusive Jacuzzi® PowerPro® jet system

Utilising Jacuzzi® Aqualibrium®, the combination of versatile **Jacuzzi® PowerPro®** Jets, and our ergonomically designed seats, our products deliver an adjustable high-flow, low-pressure hydromassage that feels like no other.

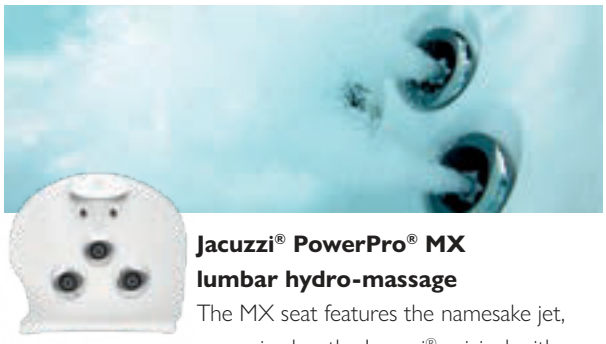

FX FX-R NX2 PX

Jacuzzi® PowerPro® FX back hydro-massage
The FX seat provides **deep hydromassage of the neck, shoulders and back** with an adjustable, spiralling jet of air and water to relieve muscle tension.

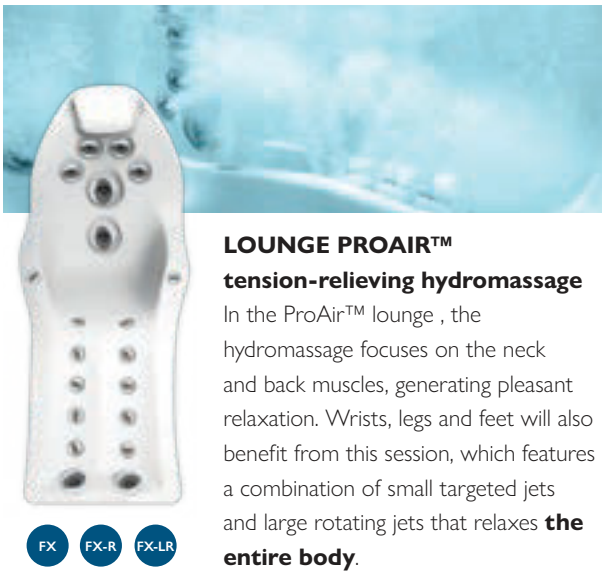

RX NX2

Jacuzzi® PowerPro® RX relaxing hydro-massage
The RX seat with rotating jets brings immediate **relief to the back and neck** with the Jacuzzi® brand's best-performing hydro-massage.

MX NX2

Jacuzzi® PowerPro® MX lumbar hydro-massage
The MX seat features the namesake jet, recognised as the Jacuzzi® original with maximum volume at low pressure; it is ideal for deep tissue massage of the **lumbar area**.

FX FX-R FX-LR

LOUNGE PROAIR™ tension-relieving hydromassage
In the ProAir™ lounge , the hydromassage focuses on the neck and back muscles, generating pleasant relaxation. Wrists, legs and feet will also benefit from this session, which features a combination of small targeted jets and large rotating jets that relaxes **the entire body**.

FX Jacuzzi® PowerPro® FX

The unique rifling action creates a rejuvenating, spiral stream of air and water, perfect for stimulating muscle groups.

FX-S Jacuzzi® PowerPro® FX Small

Based on FX technology, the FX Smallets are perfect for a focused massage on key pressure points such as your feet.

FX-LR Jacuzzi® PowerPro® FX Large Rotational

With a wide swath that provides an exceptional massage for large muscles, the rotational action can help overworked, overstressed muscles and joints.

FX-R Jacuzzi® PowerPro® FX Rotational

Focusing on smaller muscle groups with a kneading effect, the FX Rotational Jet stimulates surrounding tissue.

Jacuzzi® PowerPro® Jets

More jets do not necessarily equal a better hydromassage, but the right jets do. From the perfect mix of air and water to the careful placement of each exclusive Jacuzzi® PowerPro® jet, we deliver the optimal massage. And that is why the Jacuzzi® brand is recognised by consumers as the industry leader.

NX2 **Jacuzzi® PowerPro® NX2**

This directional jet effectively relieves tension and strain in the sensitive and hard-to reach neck area through a highly focused stream of water.

MX **Jacuzzi® PowerPro® MX**

Based on the form and function of the original Jacuzzi® Jet, the newgeneration jets deliver maximum volume at a higher air-to-water ratio to deliver a bold massage to the muscles in the lower back.

RX **Jacuzzi® PowerPro® RX**

The spinning RX Jet delivers comforting relief to the back and shoulders utilizing the highest performance hydromassage the Jacuzzi® Brand offers.

FX-L **Jacuzzi® PowerPro® FX Large**

Focusing on the middle of the back to relieve tension and muscle strain, the spiral action massage promotes better circulation.

FX-D **Jacuzzi® PowerPro® FX Directional**

Designed to relieve tension and improve circulation, this spiral action directional jet delivers a bold, targeted massage to the hips.

PX **Jacuzzi® PowerPro® PX**

Perfect for small muscle groups in the wrists, hands and legs, the gentle pulsating massage can be adjusted for different rates of flow.

Jacuzzi® PowerPro® jets are available in select models in the J-500™, J-400™ , J-300™, Design and Professional collections and in the hydromassage seats of the Swim Spas. Sizes shown are approximate.

WATER

The Jacuzzi® Hot Tub water treatment solution uses UV-C technology, that gives you the choice to add the right dose of chlorine or bromine to meet your needs. Regardless of whether you choose, the system will combine ozone with UV-C technology to offer the most powerful clean water system available.

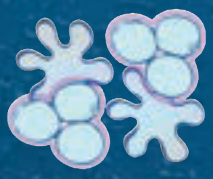

UV-C SYSTEM

Nature-inspired technology neutralizes pathogens;

- Works with traditional chlorine or bromine sanitizer
- Same technology used in bottled drinking water, aquariums, and healthcare

OUR HANDS-FREE APPROACH TO WATER CARE

Ozone
+ UV-C
Active Oxygen

Clearray Active Oxygen™ is a new water treatment technology that combines the action of ozone with UV-C rays to increase the disinfection of your Hot Tub water and reduce the use of chemicals.
A small amount of ozone is introduced into the Hot Tub water. The ozonated water is treated by the UV-C rays, which triggers a natural reaction. The water with active oxygen destroys most of the pathogens in the water in a very natural way. The clean, clear water is then pumped back into the Hot Tub where it continues to clean and polish the water, breaking down the contaminants so it can be easily be removed through the filters.

5-Stage filtration process*

Stages 1 & 2 The surface skimming weir and ProCatch™ bag work together to clean the surface while trapping large debris for easy removal.

Stages 3 The ProClarity® filter on the ProStream™ circulation pump helps ensure clean, sparkling water quickly by catching tiny debris and particles that other filters miss.

Stages 4 The ProStream™ circulation pumps pulls the water through a ProClear® filter that works to clarify water even when the jets are not running.

Stages 5 The ProClear® filter operates with your Hot Tub's hydromassage pump to remove large and small particles providing the cleanest water.

All Jacuzzi® collection models use special water treatments and multi-stage filtration to ensure your Hot Tub and Swim Spa water is disinfected.

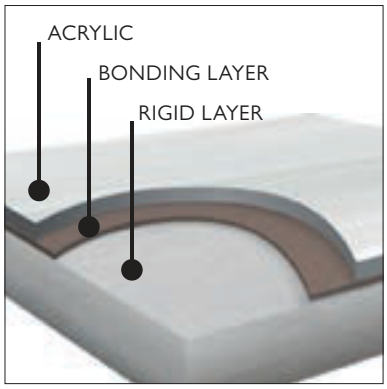

* Stages of filtration vary by collection

QUALITY

Jacuzzi® Hot Tubs are designed for reliability, both inside and out. We believe that quality is only as good as the people, processes and parts behind the products. That's why our products are exceptionally engineered with the best materials to ensure a superior product.

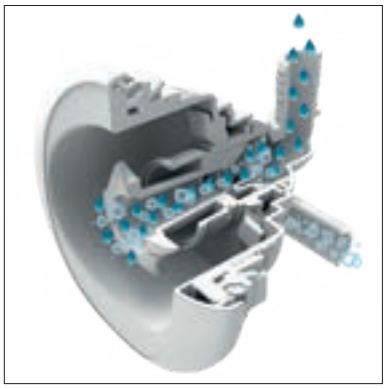

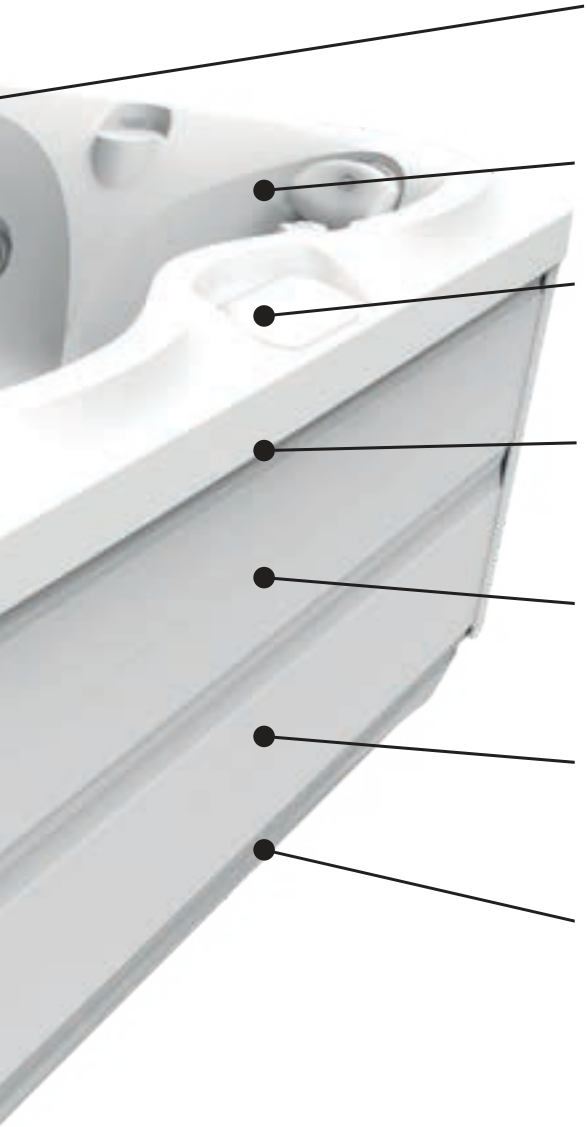

ProFusion™ Shell
Three layers for a strong, scratch-resistant shell

Full-foam Insulation*
An moisture, and sound barrier adding structural integrity to pipes

choose your Hot Tub:

1. select the size and number of seats

A common misconception about Hot Tub size is that you're limited to models with less seating options when yard space is limited.

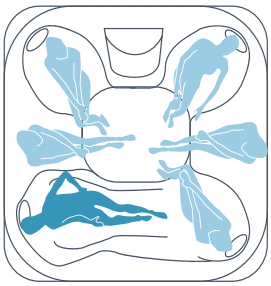

The good news is that a Hot Tub with more massage combinations requires only a slightly larger footprint; sometimes a matter of only a few inches.

2. select the configuration of the seats

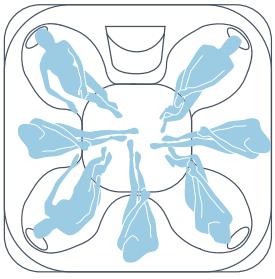

Lounge

As well as offering several seats, the Hot Tub with lounge allows for a complete individual massage while lying back.

Open seating

The Hot Tub with side-by-side seating offers various types of massage.

3. find the Hot Tub for you

Reflexology foot dome

- The J-575™ offers a lateral foot massage that is the perfect way to relax after a long day at the office, an intense workout or long hours on your feet.

Watercolour™ waterfalls

- Dual facing waterfalls, combined with ProEdge™ Interior Lighting provide a 360° fibreoptic experience which creates a complete environment of relaxation that can be tailored to your mood.
- The waterfalls create a relaxing head and neck massage to help unwind after a long day and work in harmony to provide an exceptional massage for the larger back muscles.

RX therapy full body lounger

- The J-575™ lounger is a fully immersive experience with focused and deep tissue massage jets for your back and hips to softer less vigorous jet options for the back of your legs and feet.
- The lounger has been upgraded and debuts two large FX Directional jets that create a kneading effect, which stimulates the muscle tissue in the hips for a superior massage experience.
- The J-575™ hydrotherapy seat incorporates comfortable arms rests which also include advanced PX therapy jets for a pulsating wrist massage.

  - Standard Speakers
  - Sub-Woofer

In J-385™, J-365™ and J-345™ foot dome with exclusive IX Jet lighting

- The J-300™ reflexology experience comes in a variety of forms from full to multiple half foot dome modules that provide an advanced foot massage.
- Positioned centrally in the footwell so that multiple users can benefit from this hydrotherapy massage feature no matter where you are sitting in the Hot Tub.
- This massage capability is ideal to help you unwind after a long day at work, a heavy workout or prolonged time on your feet.

Hydrosoothe™ Massage Pillow

- A waterfall which acts as a soothing water feature and as a relaxing head and neck massage to help unwind after a long day.
- Two large rotational jets integrated into the Hydrosoothe™ Massage Pillow for a focused back massage designed to release and sooth aches and pains
- The ProLite™ chromotherapy lighting allows you to set the scene and create an ambiance tailored to your needs or occasion.

J-375™, J-355™, J-335™ and J-315™ full body massage lounger

- The J-300™ lounger combines all the technology of the Jacuzzi® PowerPro® jet offering giving you a full body massage from head to toe.
- A fully immersive experience with focused and deep tissue massage jets for your back and hips to softer less vigorous jet options for the back of your legs and feet.
- The lounger combined with speciality Jacuzzi® PowerPro® FX-L Jets exclusive to the collection offer a more advanced lower back and leg massage perfect for recovery after a long day.

- Automatic water fill-up (Virtus, Profile)
- Back-lit touch controls
- Light System - Multicolour
- Clearray® UV-C
- 2-stage filtration system
- Base in Propolymer™
- Insulation EcoShield (Virtus, Skylounge®)
- ProVinyl Cover
- Built-in or freestanding installation

Optional features:

- Performance kit (Sand filter)
- Heat Exchanger
- Winter Pro Kit

Design made in Italy

• Elegant, minimalist and sophisticated, these Hot Tubs are designed to suit any environment. Each model is available with external panels in a variety of materials and colours in line with contemporary design trends.

• These Hot Tubs give the greatest possible freedom of installation: outdoors or indoors, above or in-ground, in any environment or situation.

Original Jacuzzi® Hot Tubs with infinity effect

The Virtus and Profile models offer a spectacular infinity pool effect. On immersion, any excess water is collected in the integrated adjustment tanks via the outside grille and then returned to the tub, in order to maintain the ideal level at all times, just like a pool, with no need for top ups.

Cartridge or sand filter

The Profile, Santorini, Delos, Delfi and Unique models are equipped with a cartridge filter but are also compatible with the Performance Kit sand filter that guarantees greater filtering efficiency and reduced maintenance.

LODGE+
COLLECTION

LODGE+ M

Features:

- Jets Classic
- Back-lit touch control
- LED control panel
- Underwater LED multicolor light
- Clearray® UV
- Cartridge or sand filtering system
- Base in Propolymer™
- EcoShield insulation
- Insulating cover ProVinyl
- Above or In-ground Installation

Optional features:

- Sand Filtration
- Heat Exchanger
- Heat Plus
- AISI 316 L frame

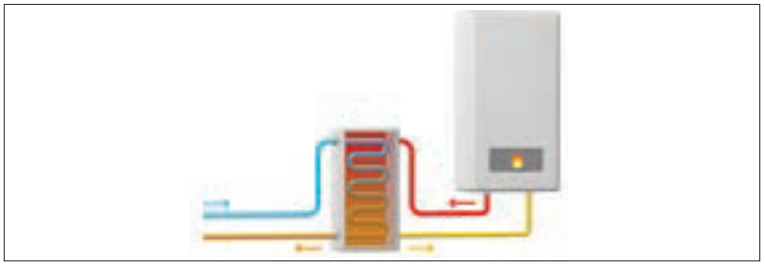

Complete & Quick Drain®

• All the water is emptied out of the Hot Tub through a drain located in the base.
This prevents stagnant water and allows you to thoroughly clean the Hot Tub during change overs for your next guests.
• The Quick Drain® device reduces drain times by up to 50% compared to standard hose pipes or submersible pumps.

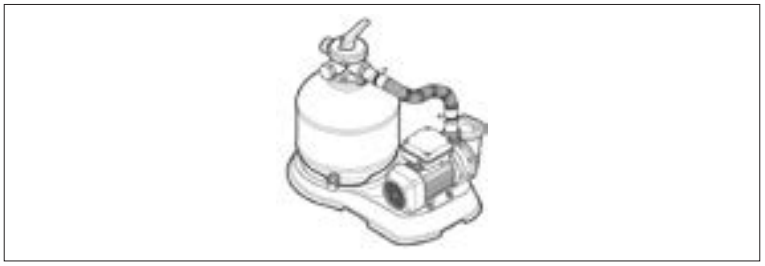

Heater or heat exchanger

• The Lodge+ range can be fitted with an upgraded electric heater or a heat exchanger, which is an inexpensive, green solution that exploits the heat produced by your facility's heating system or by renewable sources. To shorten heating time even further you can use the heat plus option in addition to the standard heater.

Sand filtration (optional)

• Optional sand filtration gives long standing assurance of hygiene and cleanliness because it traps the impurities in the water. It is easy to remove, must be cleaned on a regular basis and replaced when necessary.

Jacuzzi®

PROFESSIONAL COLLECTION

SASHA MI - ENJOY - SIENNA
B&B Sorrento Dream Resort - Italy

Features:

- Jacuzzi® PowerPro® Jets
- Blower (except Virtus)
- Premium LED Lighting
- Automatic water fill
- Quick Drain®
- ProVinyl Insulated cover
- In-ground installation

Optional features:

- Compensation tank
- Spa Pack Single-phase with or without heater 3,0 kW or with heat exchanger
- Spa Pack three-phase with or without heater 12,0 kW or with heat exchanger
- Ozone generator

Overflow rim & automatic water fill

A distinctive feature of the Professional range is the 15° angled overflow gird around the surface of the Hot Tub. It collects surface water, which overflows through the grid to a compensation tank. The water is then moved through a filtration system, cleaned and pumped back into the base of the Hot Tub to be re-used. Thanks to the slant of the grid the water remains at Hot Tub deck level even if there is a rocking motion, so they can be installed on yachts and ships.

In-ground installation

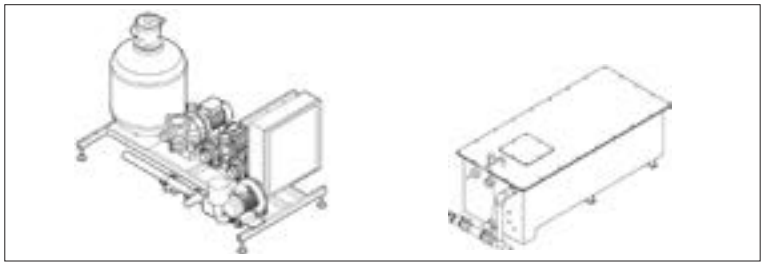

Different to a domestic Hot Tub, installation is in-ground and involves installing a separate Spa Pack and compensation tank to allow water to continuously move through a quartz sand filter where it is cleaned before flowing back into the tub for re-use.

Sand filter (Spa Pack) & compensation tank

The professional Spa Pack includes:

- Sand Filter (sand included)
- Set of pumps (hydromassage, circulation and blower compressor)
- With or without heating (electric heater or heat exchanger)
- Control system
- Compensation tank is available in a standard or low height.

Spa Pack

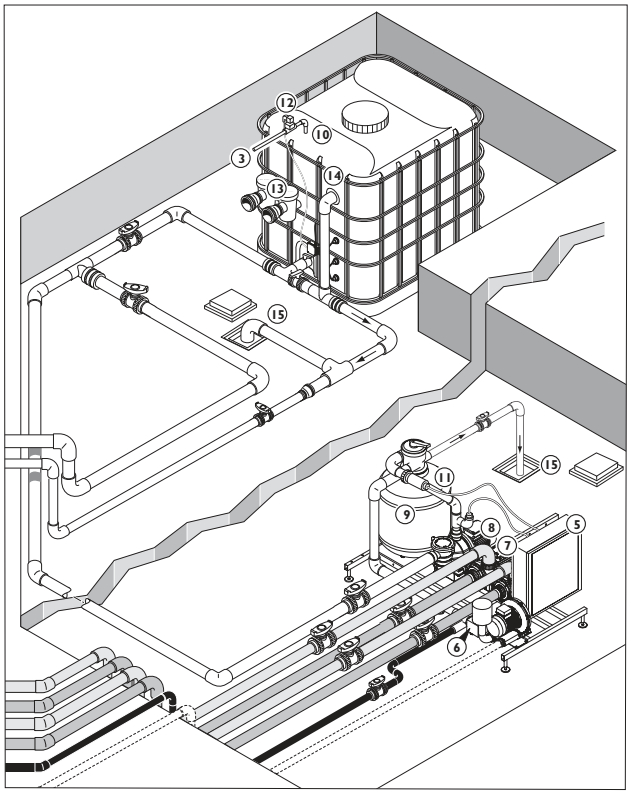

The Professional Hot Tubs baths are also distinguished by the very low noise level of the system. The Jacuzzi® technicians have in fact designed the set of pumps, the water heating system consisting of the electric heater and of the heatexchangers, the compressors for the blowers and an optional ozonizer (indispensable to further increase water quality) in an independent technical compartment (Spa Pack) that can positioned at a distance of up to 6 metres.

Thanks to superior quality filtering, the quartz sand filter makes these Hot Tubs ideal for professional use. The filtered water flows back to the Hot Tub through the ground drainage point: this method, as well as offering the visual effect of an "underwater fountain", sends the particles deposited at the bottom of the Hot Tub into circulation making them more likely to be captured by the jets that send the water to the filter. Although it is technically complex, the system is easy to manage even by home users by means of pneumatically controlled buttons.

Spa and piping system

Perfomance

The Jacuzzi® PowerPro® Swim Current jet is engineered to ensure water is flowing properly. The wide stream jet generates a smooth predictable current with no turbulence for an advanced swim experience.

Design

Best for both swimming and Relaxing. Hips in shell stop reflective wave. The suctions jets are located at seated end to create conveyor belt effect for water flow.

Form Smart Swim Goggles

Smart swim goggles specifically calibrated for the Jacuzzi® Swim Spas. Complete with optical display lens to view time, distance, stroke frequency and rhythm in real time. Compatible with GPS trace and heart rate measuring devices. The dedicated app allows users to customise training sessions, monitor the results and share them.

CUSTOMER SERVICE AND ON-GOING COMMITMENT

Showroom

When you have an idea of the Hot Tub model that will suit your needs, you can see the real thing at your nearest showroom.
Our experienced sales force will then take you through the purchase process and in many instances give you're the opportunity to try out Hot Tubs in demonstration areas.
For more information on the technical features of the products, please consult the website www.jacuzzi.com where you will find a list of authorised dealers you can contact.

Delivery

Once you have selected the Hot Tub you can arrange for it to be delivered. This part of the process involves us scoping out the fitting area, the location of your home and the logistics of bringing the tub to you.

Fitting

After the electrical work & level base have been completed, Jacuzzi® will send their expert fitter to connect the Hot Tub to its desi gnated power source. They will then fill the tub to the right level and then demonstrate the correct way to use it.

Aftercare

With the Hot Tub installed and being used at your leisure, it's good to know that Jacuzzi® is always on hand to deal with any questions, offer tips and recommend the best ways to keep your unit running smoothly.

Warranty

All our Hot Tubs carry a standard 2 year warranty to provide you with superb peace of mind. the 2 year warranty is for EU countries only. For other markets please check with local retailer.

The descriptions and images of the products in this catalogue are only indicative and are not binding for the purposes of their use. Jacuzzi Europe reserves the right to make any changes to the products deemed appropriate at any time and without notice.
