What's trending? And where do the edges of those trends begin and end? The edges that are swept up and championed by the mainstream, and those that push forward to create new expressions in the world. These are the questions that, as designers, we ask at the outset of every project.

At Kohler, trends in lifestyle, fashion, cuisine and culture influence the details of our work. From technologies that redefine living spaces to materials and colors rising in the zeitgeist, we study these movements.

This book represents the current and emerging trends we've identified as the most compelling for bathroom spaces. Enjoy!
