experience of generations

We believe, that nowadays our experience as well as the quality of manufacturing process and the general knowledge supported by good design are used for reliable product creating, which are fun to everyday use

experience of modern craftmanship

From the beginning of our company existance, we have been trying to make the quality and craftmanship reliability as the foundation of everything we manufacture. We are still searching for inspirations and new ways of development to create good products for future generations. We are there for

experience of detail

Designing is not just a collection of mathematical calculations. It is the visual strength of detail which is born together with the cooperation of emotions, technology and craftmanship precision. We love details.

standard ORiSTO

High and frequently changing air humidity, contact with liquid water, condensation on ceramic tiles and the risk of contact with chemically aggressive cleaning agents- these are the factors that make bathroom furniture particularly vulnerable.

At ORiSTO, aware of these threats, we are the only company on the Polish market that uses unique, triple protection against water and moisture.

Firstly, we choose moisture-resistant boards for furniture construction- they can be easily recognized by their greenish color. Such boards swell less when in contact with water and retain their structure and durability.

Secondly, we carefully varnish the elements with specially selected varnisheswith increased waterproof standards.

The third element is a waterproof polyurethane glue for gluing board edges. It is a barrier that, thanks to a tight joint, additionally protects the moisture-resistant board.

This combination of security measures allows us to say with conviction and certainty that we are the best on the market.

novelties

ETNA

brand new
UNI collection

Bathroom furniture ETNA collection is recognized by clear and minimalistic design. Horizontal fronts and handle lines draw an elegant, aesthetic interior. for everyday pleasures

minimal design

Created in the spirit of minimalism, timeless ETNA collection is an invitation to the world of constant elegance. Varnished version are available in six special colours, while the stone oak variant bring us to the fashionable and modern, yet elegant and resistant to temporary trends interior.

unlimited possibilities

One collection, endless possibilities. This is the project, which is expressed through personalization: two types of handles – long (40, 60, 80, 120cm) and short (20cm) in six colours offer many possibilities of composition and matching to fronts.

Modern form connected with the natural decor. Stone oak is an elegant decor in the shades of golden beige combined together with the rich structure of the grain. Its neutrality creates beautiful base for different colours, thanks to this ETNA series easily fits to modern interiors together with the open space of the bathroom.

power
of configurations

Just like the other collections, ETNA can be connected with the wide range of furniture and lay-on washbasins as well as countertops and accessories. This creates an endless variants of modern arrangements.

Lacquered ETNA series can be easily connected with universal countertop appeared in ORISTO colors, e.g. with the natural solid oak Wood which is finished by oil. Composition: cabinets 60+40+60, countertop 160cm.

Gently milled bottom of countertop's edge creates the composition light and, together with the handle, elegant in its visualisation. It also ensures the comfort of opening.

creative
dialogue

Different colors of ETNA series
allow to create such composition,
which makes the dialogue
together with the residential area.

handles’ colours

Narrow, 20 cm. version of handle , dedicted to ETNA series are available in different color variants. Glossy chrome, white mat, or brushed surfaces – black, titanum, copper and gold – alllow to diversely emphasize the figure of this UNI collection and the inside of the cabinet.

together
or separately?

Just like all other UNI series, ETNA also enables to arrange the bathroom in modular version, where some of the cabinets are combined to the bigger system to be further covered by the countertop. ETNA cabinets can be also used in individual arrangements, where the single cabinet is assembled with vanity washbasins. Then we especially recommend short handles from this collection.

assembly of handles for ETNA

ETNA cabinets are sold with no handles, so the combination with short handles (20 cm) as well as long handles on the whole length of the front is possible.

COMPACT

new platform for ORiSTO furniture

COMPACT

UNI

- width's like in UNI collections- 60, 80 i 120 cm.
- projection of only 38 cm.
- iterior standard like in UNI collections
- assembly with dedicated ETNA washbasins
- colors/decors like in UNI collections

SIENA
compact

Refined detail in symbiosis with the universal simplicity of solids is a unique feature of SIENA series. COMPACT with the projection of 38 cm is available in two colours of lacquer: glossy white and black matt, but there is also the stone oak variant. This monochromatic nature of the collection fits perfectly into barrow and non-standard interiors arranged in any style.

narrow bathroom?

Narrow bathroom requires a careful and thoughtful choice of furniture to use the space in the most efficient possible way. SIENA COMPACT, when connected with the ETNA washbasin makes the composition an elegant and highly ergonomic.

ETNA
compact

The minimalism of ETNA series will be recognized by the passionate of a modern design. COMPACT with the depth of 38 cm is available in two colours of lacquer: glossy white and black matt. There is also the natural stone oak. Personalization of arrangement is possible by two variants of handles: horizontal for the full width of the cabinet (40, 50, 60, 80, 120) and narrow (20 cm). ETNA perfectly fits in barrow, exceptional bathroom which are arranged in virtually any style.

dadicated washbasins

To all COMPACT cabinets we have designed a synthetic ETNA washbasin. In the version of 80 and 120 cm it has the wide and comfortable utility surface on the sides of the bowl.

mini handle

In ETNA series the choice of width and colour of the handle changes the appearance of the composition in general. The smallest one, 20 cm, suits to the high units. This version is available in 6 different colours: white gloss, brushed titanum, gold and cooper as well as black matt and chrome gloss.

BRYLANT
compact

The sophistication of the BRYLANT series will be appreciated by proponents of minimalistic solutions and intriguing details. Horizontal arrangement of figures, emphasized by clearly marked edges and delicately milled handles give noble sophistication to this visually sparing series.

precious geometry

Master figure involves conscious cut. Giving shapes is an endless dialogue between what is sufficient and what enhances character. BRYLANT series combines the nobility of geometry and a unique cut. This is the essence of a conscious choice for supporters of comfortable and impeccable solutions.

SIENA

stone oak
decor

Natural and elegant decor in the colour of stone oak combined with delicate figure of SIENA, creates a unique composition. Shades of golden brown with the rich and visible structure of growth ring perfectly highlights the countertop lacquered in the deep Black matt. Silver handle creates the jewellery effect.

freedom af arrangement

Combining coherent bathroom from the elements which differ – that is the state of art. The art of interiors creating.

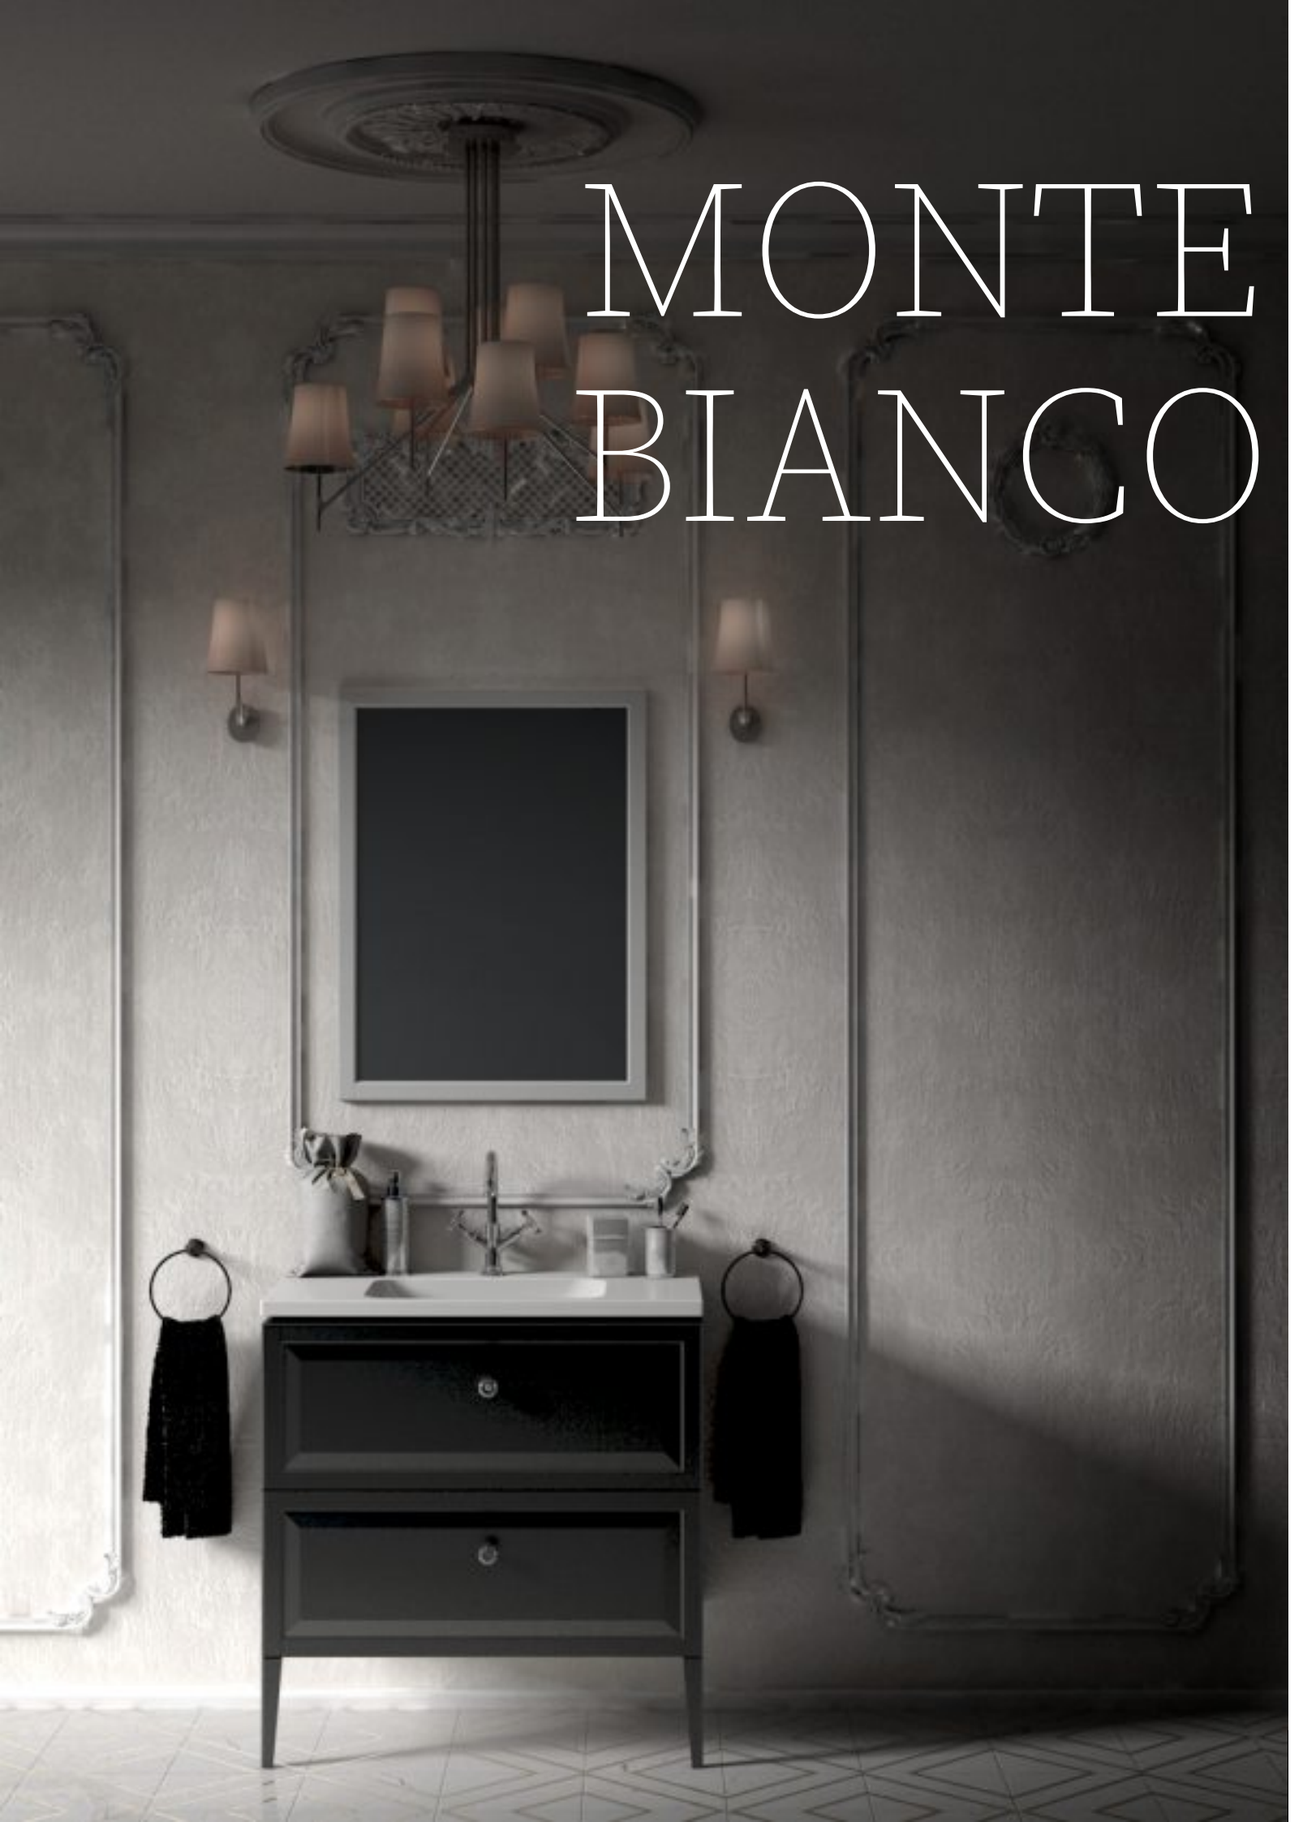

The SIENA series is a master in the art of creating unique interiors. The soft curvature of the fronts emphasizes their colour, the subtlety of handle and minimalistic countertop. The variety of colours of the collection, handles and countertops, allows one to create a sophisticated bathroom composition.

we expanded our portfolio with the New, interesting design of the countertop washbasin. From thin, optically delicate shapes to stronger, more Massie forms such as an ILLUSION ceramic washbasin.

Deep, oval washbasins with thicker edges are the strongest New trend in the design of countertop washbasins. The unique character of the Illusion ceramic washbasin is created by its streamlined shape and comfortable deep bowl.

MONTE BIANCO

black mat colour

Deep black matt connected with the MONTEBIANCO series is hypnotizing with its classical beauty. This connection is a real journey into the senses where each experience is sharpened to the maximum and the play of the light in monochromatic interiors is focused on details and subtle nuance of this series.

magic details

The wide range of handles: from antiqued tin which is added as a standard to black, gold and glossy crystal ones. It gives the freedom of making the collection nuanced and creating import antdetails in the space.

SKAGEN

natural
oak veneer

New SKAGEN collection's variant in natural oak veneer emphasizes the Scandinavian character of the design. Perfectly suitable decor emphasizes unpretentiousness of the figure and the uniqueness of design.

affirmations of nature

natural oak veneer explicit the wood grain and the delicate curvature of the handle line.

SKAGEN in oak version perfectly suits to the UNI countertop lacquered in sand matt and the ceramic washbasin ILLUSION. This design creates the bathroom full of natural charm and sophisticated simplicity.

UNI

with extra colours (per customer order)

Color has power. The power to evoke emotions. The bathroom space is a picture that we paint in different colors in order to create a common space and polyphonic melody. At ORiSTO, we consciously limit the color palette. We want the interiors with our furniture not to age over time, because in our opinion, timelessness is the key to lasting beauty.
Our new colors are the essence of earth and nature. We selected them for selected collections- SIENA, SKAGEN and BRYLANT- so that they fit harmoniously in any interior and in any style.
New colors are available to order.
We invite you!

ciepły,
ceglany mat

The brick color is a noble shade of red referring to the natural beauty of traditional bricks. Warm, sun-baked brick clay is, after all, one of the most beautiful colors in architecture. It brings to mind peace, harmony and the rustic charm of small towns.

rustic charm

The warm, brick matte reflects and highlights the beauty of natural materials, which is why it fits perfectly with wood, clay and wickerwork. Combined with the SKAGEN collection, it creates a dialogue between the past and the future. History and modern design. It is a color that encourages emphasizing texture and sensory quality in interiors.
/ composition: cabinet 60 cm, countertop 140 cm.

deep blue mat

Gray blue is the quintessence of minimalism and universality in color. A color that combines subtle shades of blue with neutral grays. It brings peace and freshness and modernity to the space.

air breath

Gray blue is like a fresh breath of air in the interior. It looks particularly attractive in the context of minimalist and contemporary arrangements. Combined with the BRYLANT collection, it focuses on the elegance of form and details.

Deep, gray blue visually enlarges the space and is easy to combine with other colors. It is perfect as a base or accent color. This color is particularly sensitive to the color of light in the room. In warm light it will be more saturated and intimate, however combined with cool light and silver accessories – more elegant and refined.

visually
ellegant

Deep, gray blue visually enlarges the space and is easy to combine with other colors. It is perfect as a base or accent color. This color is particularly sensitive to the color of light in the room. With warm light it will be more saturated and intimate, while in combination with cool light and silver accessories- it will be more elegant and refined.

olive green

Olive green matte is one of the most natural, subtle and beautiful shades of green. Our color has a bit of bitterness that adds sophistication and taste like the best Italian olive oil for dishes

naturally fresh

Olive green matte makes the interior more friendly and organic, while maintaining its modern look. It is a color that goes very well with other earth colors. Its subdued character calms down even the slightly aggressive form of the SIENA collection, bringing peace and balance to the interior.

Olive green matte allows you to arrange yourself in various styles, and its light sensitivity makes interiors in this color seem more spacious. It is a color that creates calm and relaxing interiors.

bittersweet mokka

Bittersweet mocha is a color inspired by aromatic grains and oriental coffee of the same name. A rich shade of brown, with delicate notes of chocolate and red, has extraordinary softness and depth. This is one of the most interesting colors in the color palette. Noble, mature, luxurious.

sensually deep

Mocha seduces with oriental beauty and exudes sensuality. Combined with the modern shape of the ETNA collection, it creates elegant, refined, but... and cozy. Its depth brings the warmth and bittersweet taste of good quality coffee in the morning.

nobility of tone

Mocha is a more subtle alternative to black or dark brown. It has red reflections, which adds coziness and nobility to it. The depth and intensity of mocha gives interiors a modern look, with a subtle note of feminine delicacy, sensuality and expressiveness.

RAK ceramics lay-ons

FEELING (thin sides)

VARIANT

REEMA

ILLUSION

diversified in style

The new countertop washbasins in the ORiSTO offer are products of the Italian company RAK Ceramics, known for its uncompromising quality. We have selected models that, thanks to their stylistic and functional diversity, allow us to adapt the bathroom design to a wide range of preferences of our clients.

Countertop washbasins include models with a tap shelf- this is a functional and convenient to install solution.

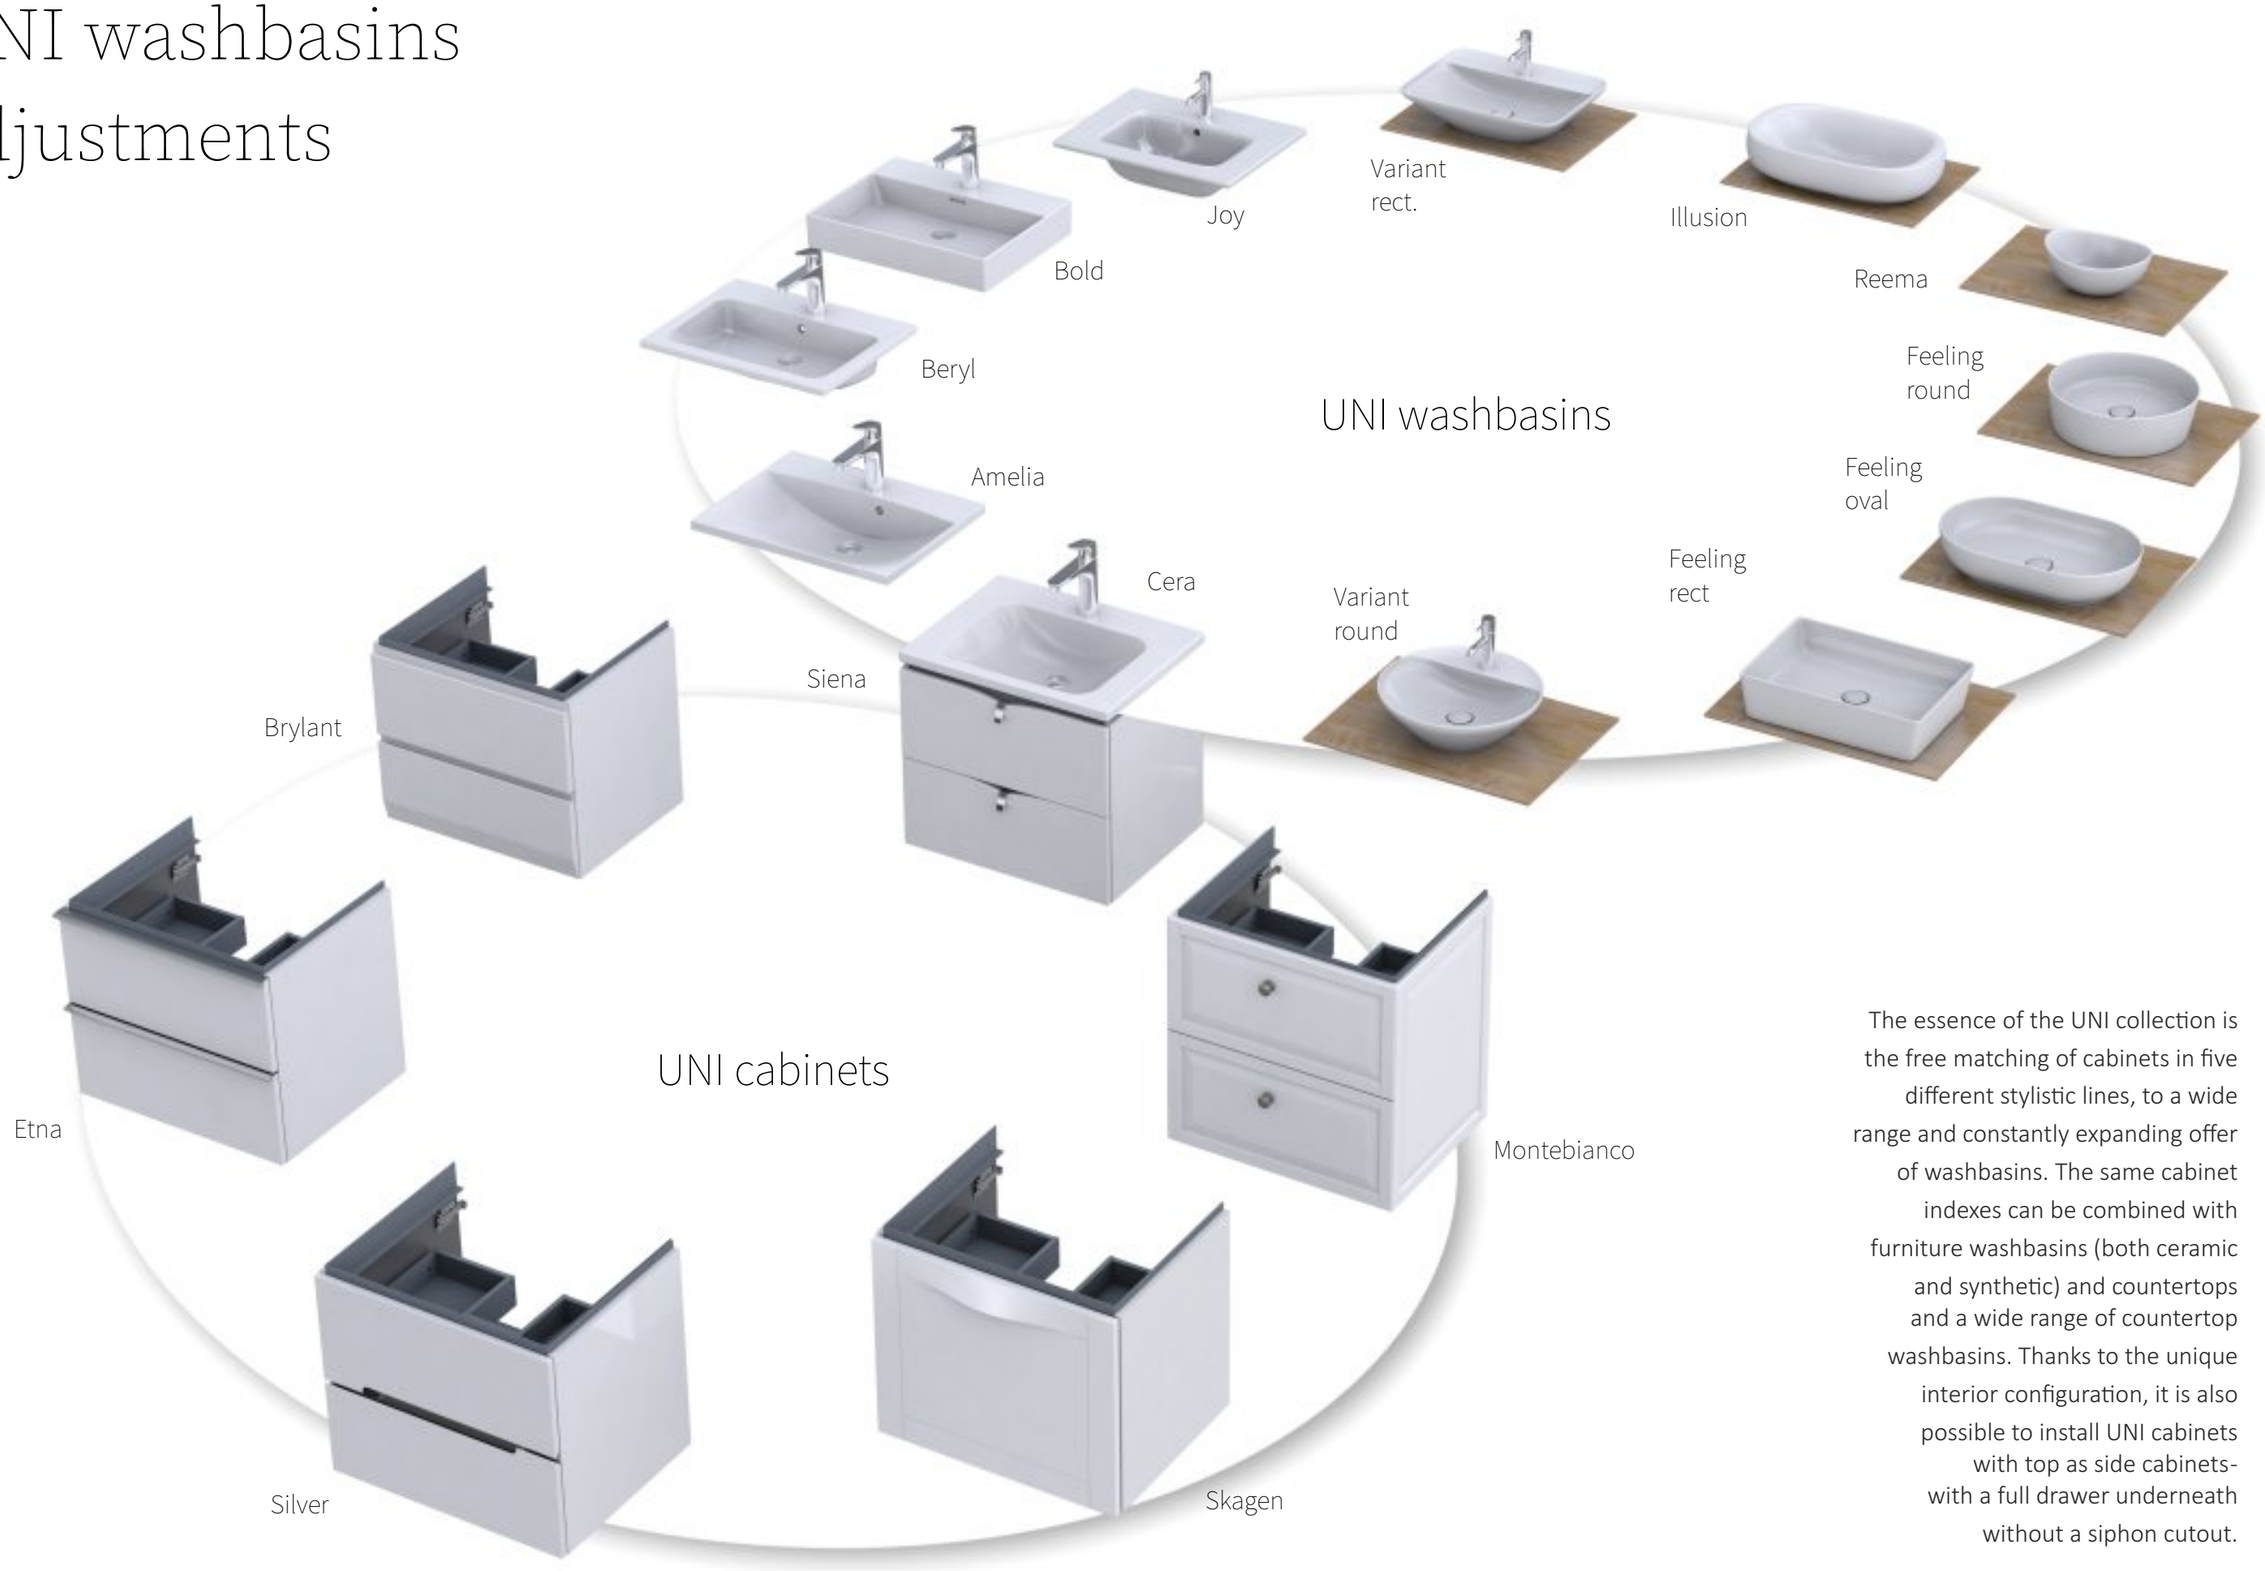

ORISTO

UNI

collections

UNI washbasins adjustments

The essence of the UNI collection is the free matching of cabinets in five different stylistic lines, to a wide range and constantly expanding offer of washbasins. The same cabinet indexes can be combined with furniture washbasins (both ceramic and synthetic) and countertops and a wide range of countertop washbasins. Thanks to the unique interior configuration, it is also possible to install UNI cabinets with top as side cabinets- with a full drawer underneath without a siphon cutout.

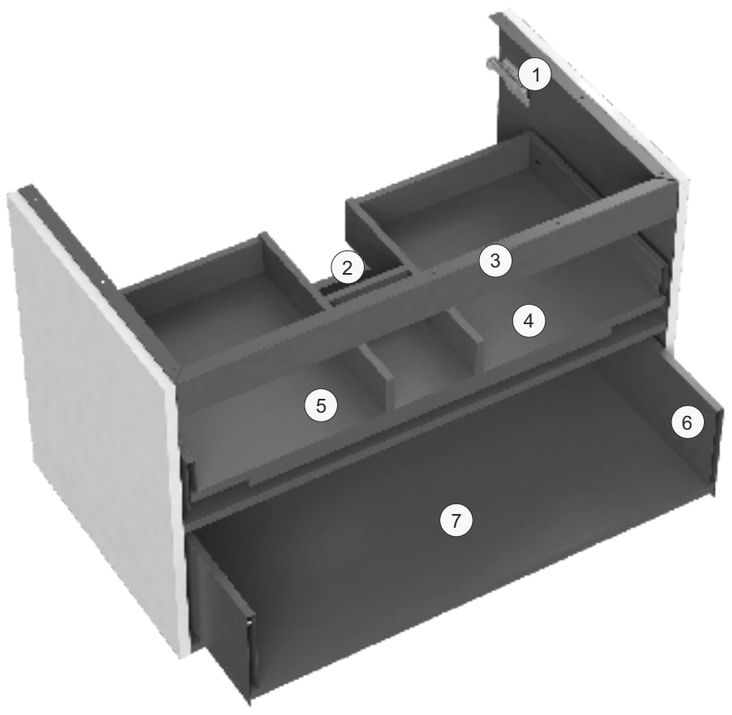

UNI cabinets interiors

All UNI base cabinets, both those with one large front and an internal drawer, and those with two drawers, attract attention with their carefully finished interior. The graphite color of the internal surfaces is elegant and functional- no dirt is visible on it. Visually delicate metal drawer sides and precisely crafted interior elements physically and optically enlarge the space and organize it well.

Drawer organization is common to all. The upper ones are equipped with compartments that facilitate the organization of space for storing small items, the lower ones offer large space for larger items, such as packaging of cleaning products.

interior

When designing our universal collections, we made every effort to make the interiors of the cabinets stand outwith high standard and elegance. Dark drawer bodies, perfectly harmonizing with the topclass metal sides and internal surfaces protected with graphite varnishbodies – all this is synonymous with the highest quality. However, we have not forgotten about the advantagesfunctional- in such an interior there are no signs of wear and damage to the surface and paintingthe interior of the bodies additionally protects these elements against water.

1. 3d adjustable wall hangers > precision of installation
2. replaceblae middle inlay > flexible configuration
3. metal top profile > cabinet stability
4. graphite interior > elegant appearancce as well as less dirt visibility
5. SLIM metal drawers > only 12 mm thickness
6. upper drawer compartmens > better storage management
7. spacoius bottom drawers > convenient storage of big packages

tall cabinets

carcassess > HMR chipboard or MDF
fronts > HMR MDF
interior > graphite lacquer or lamiante

2 variants of tall cabinets

1. flat and wide to secure convenient access to stored items
2. stadnard, with optional loundry basket

3. universal left/right doors
4. carcassess installed on hidden, 3d adjustable wall hangers
5. 6 adjustable glass shelves

konfiguracje

szafka pod umywalkę 60/80 cm, syntetyczną

- po instalacji listwa wystaje ponad boki szafki około 2 mm, umywalka lekko unosi się nad bokami, połączenie należy uszczelnić silikonem
- metalowa listwa górna instalowana z kołnierzem w dół
- wkład środkowy szuflady w wersji krótkiej, zostawione puste miejsce na syfon w tylnej części wkładu

szafka pod umywalkę 60/80 cm, ceramiczną

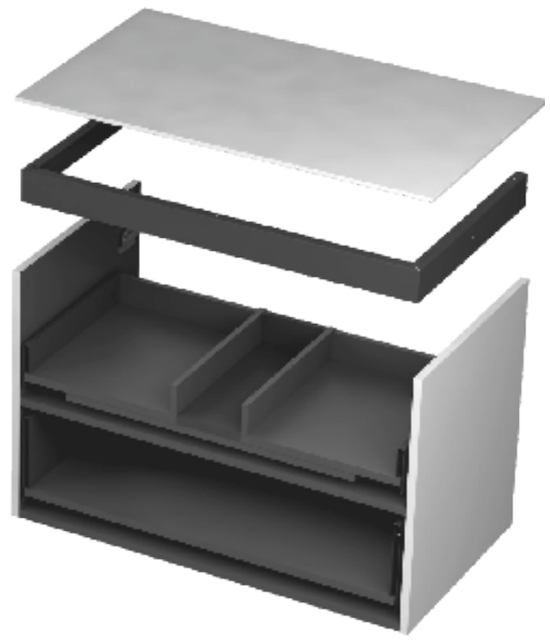

- po instalacji listwa wystaje ponad boki szafki około 16 mm
- metalowa listwa górna instalowana z kołnierzem w dół
- wkład środkowy szuflady w wersji krótkiej, zostawione puste miejsce na syfon w tylnej części wkładu

szafki 60/80 cm, pod blaty i umywalki nablatowe

- po instalacji listwa wystaje około 2 mm,
- przy konfigurowaniu szafki bocznej jako komody – wkład szuflady w wersji długiej
- metalowa listwa górna z kołnierzem do góry do którego przykręcamy blat
- przy instalowaniu umywalek nablatowych – środek szuflady w wersji krótkiej

konfiguracje

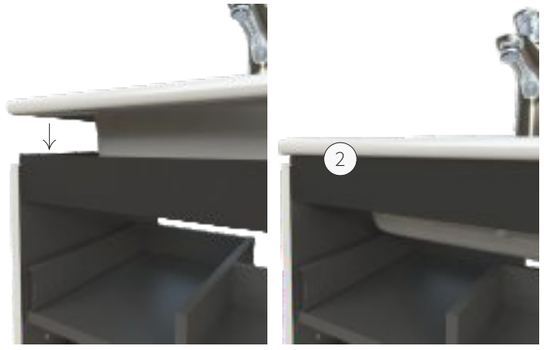

szafki podumywalkowe 120 cm

→ standard i rozwiązania materiałowe analogiczny jak w pozostałych meblach

1 górne szuflady wyposażone w dołączone z produktem 2 wymienne wkłady – na środku i boku. Odpowiedni montaż wkładów pozwala na przygotowanie szafki do wariantowej instalacji – jako komody czyli dużej szafki bocznej (wszystkie wkłady pełne) lub szafki podumywalkowej z opcjonalnie umieszczonymi umywalkami – po lewej lub prawej stronie (jeden wkład częściowy)

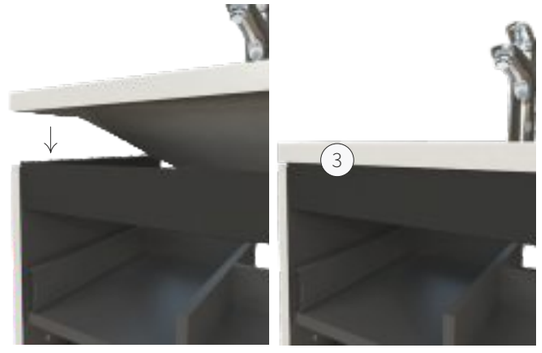

umywalki ceramiczne

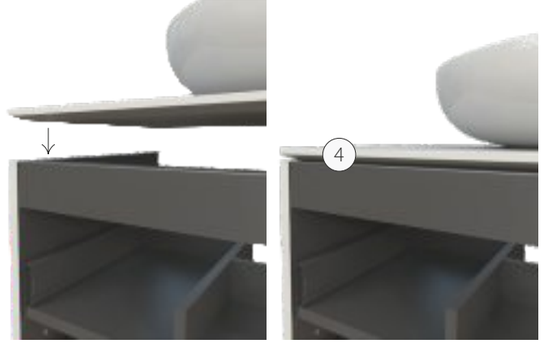

2 mocowanie listwy górnej 16 mm pod umywalką ceramiczną i kołnierzem do dołu

umywalki syntetyczne

3 mocowanie listwy górnej 2 mm pod umywalką syntetyczną i kołnierzem do dołu

blaty i umywalki nablatowe

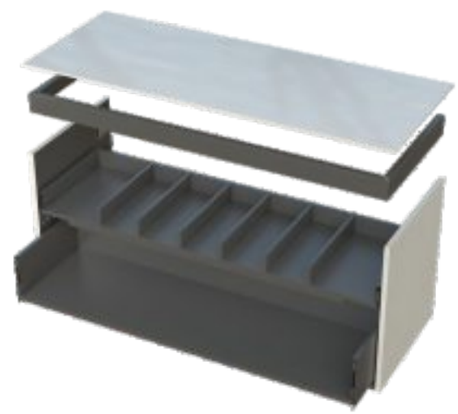

4 mocowanie listwy górnej 0 mm pod blatem i kołnierzem do góry

szczegóły mocowania listwy górnej w zależności od wariantu instalacji – analogicznie jak w przypadku szafek 60/80 cm. Przy instalacji umywalek z dwiema misami lub dwóch umywalek nablatowych – wkłady krótkie w skrajnych sekcjach szuflady górnej. W przypadku instalowania jednej umywalki nablatowej asymetrycznie – wkład krótki, odpowiednio z lewej lub prawej strony.

w pozostałych przypadkach instalacji umywalek – jeden wkład krótki w środkowej sekcji szuflady. W przypadku instalacji jako szafki bocznej – wszystkie wkłady długie. Przy asymetrycznym układzie z umywalką z lewej lub z prawej strony – wkład pod umywalką krótki, pozostałe długie.

SIENA

UNI
collection

Sophisticated detail in symbiosiswith universal simplicity of shapes is a unique feature of the SIENA collection. The handle incorporated into the soft curve of the fronts creates a visually expressive detail. Variety of accessories and handle colors- from identicalfrom solid to expressive varnishand contrasting variants – allows you to create unique bathroom arrangements.

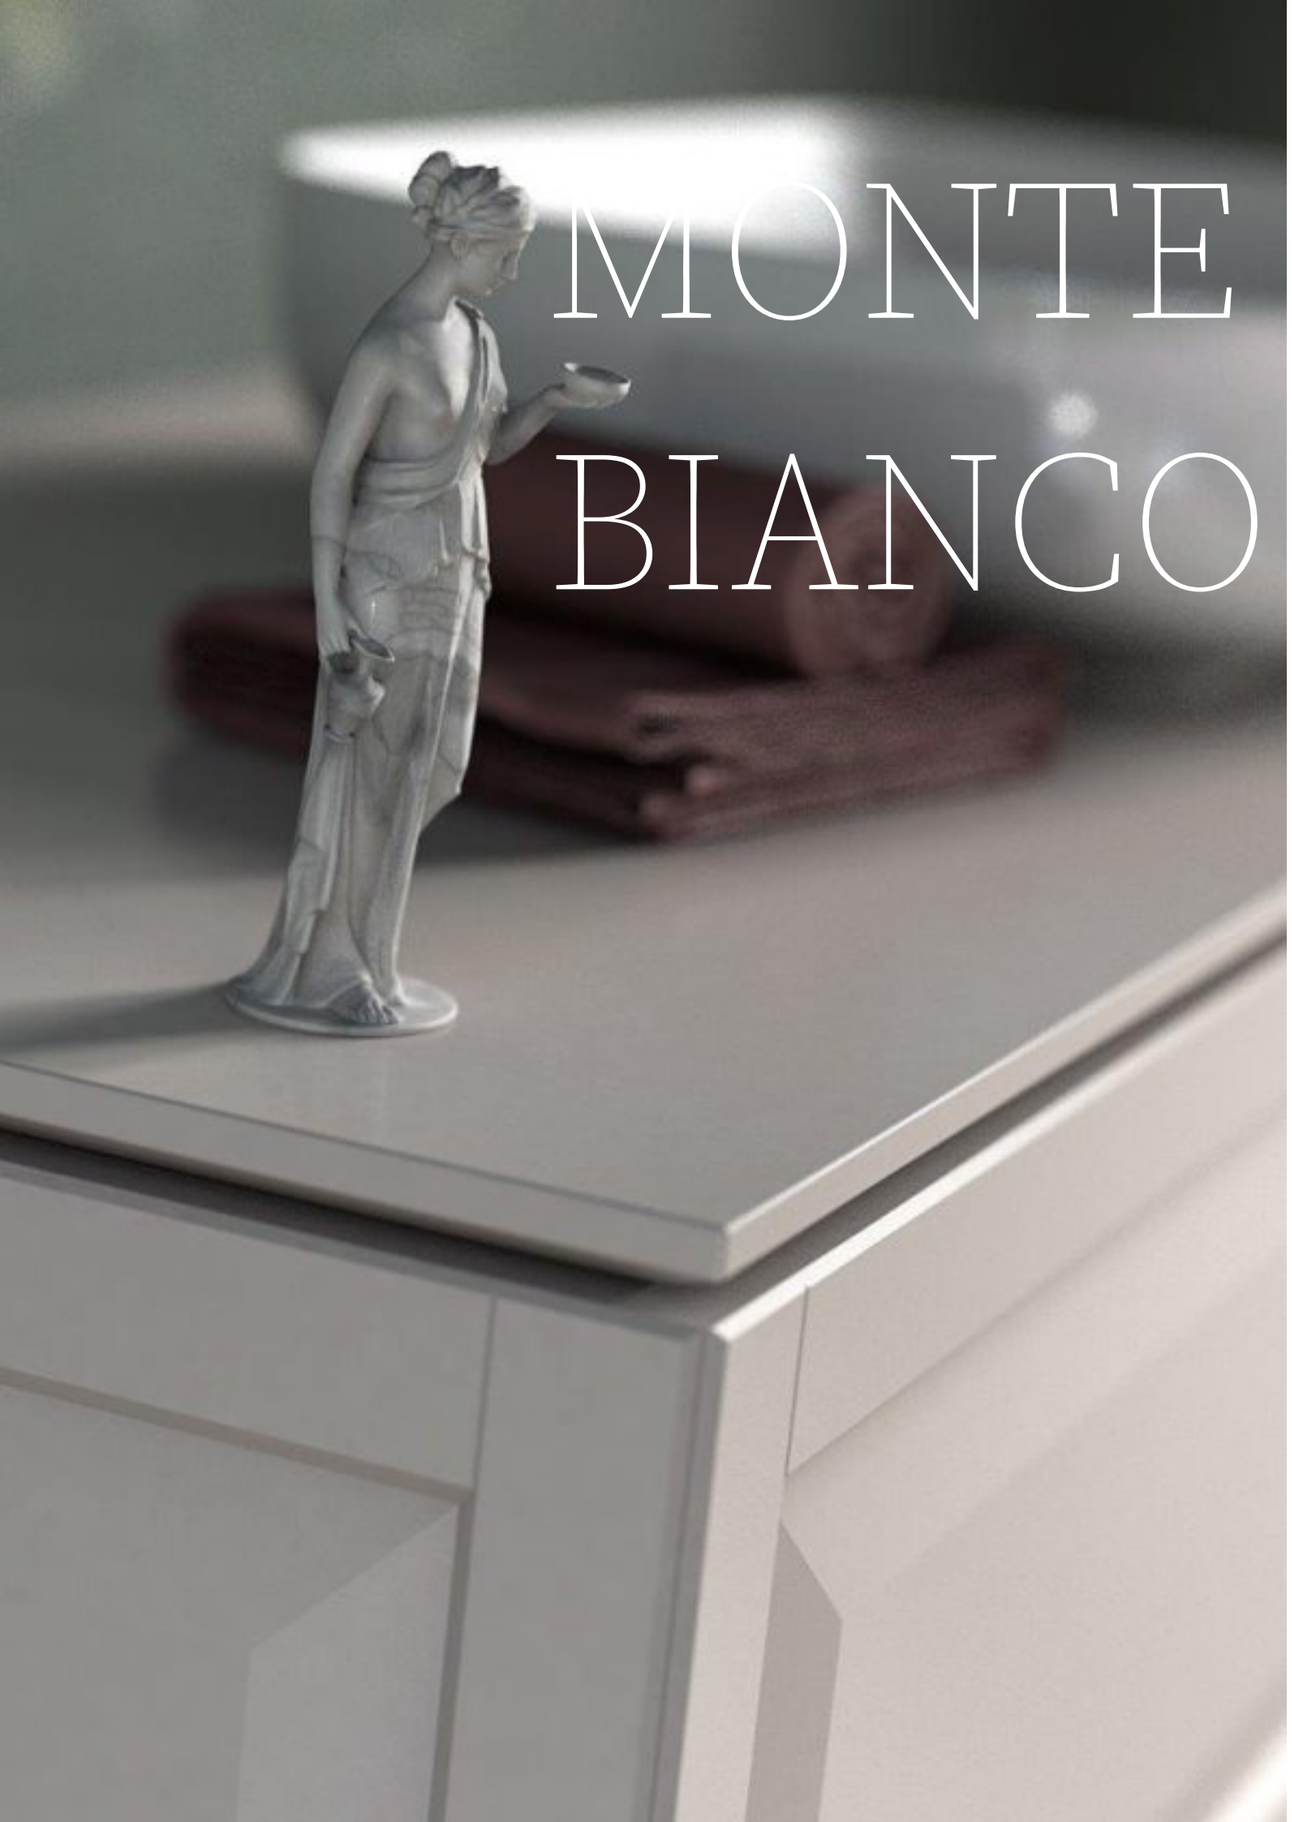

freedom of configuration

The SIENA collection, like all UNI collections, can be freely configured with handles, countertops, washbasins and specially designed accessories. This gives you design freedom, thanks to which the composition of bathroom furniture will match the surfaceand individual preferences.

MONTE BIANCO

UNI collection

The discreet charm of a conventional form, refined by years of experience. Frame construction, classic carved cutters on the fronts, classic elegance and charm- these are synonyms of the MONTEBIANCO bathroom furniture collection. The collection looks great in interiors where nostalgia for the classics and a touch of glamor is the main idea of the arrangement.

classical charm

Designed with discreet elegance, the MONTEBIANCO collection invites you to arrange a classic and stylish bathroom. Stylish and in good taste. Carefully refined proportions and details bring to mind the times of traditional values and aesthetics.

SKAGEN

UNI
collection

The unique SKAGEN collection is a tribute to Scandinavian simplicityand elegance. The geometry of the shapes, highlighted by the line of frames on the fronts, smoothly transitions into a soft detail, creating an intriguing handle that defines the design of the collection. This is a collection for enthusiasts of subtle design embedded in natural materials.

tribute to naturalness

The combination of the SKAGEN collection in a sand mat with a natural oak countertop is an affirmation of naturalness, so characteristic of interiors inspired by Scandinavian or Japandi style.

sophisticated design

The SKAGEN bathroom furniture collection is a proposition for those who value refined simplicity, for those interested in a raw but warm interior, for enthusiasts of honest design embedded in natural materials.

SILVER

UNI
collection

The SILVER collection is a minimalist design, intriguingly decorated with milled handles on the fronts, available in three color variants: silver, gold and black. SILVER is a combination of pragmatism and modernity that fits perfectly into interiors of any style.

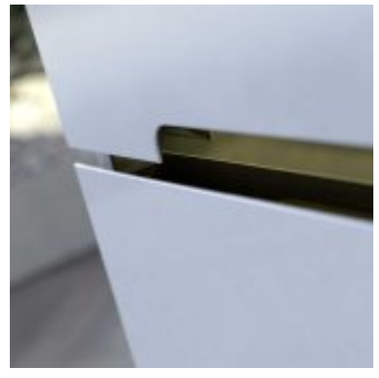

handle rails
- sellect your colour

SILVER UNI handles milled in the fronts can be combinedwith three internal stripsin the popular decors of matt black, glossy gold and chrome

freedom of configuration

The SILVER collection can be freely configured with handles, countertops, washbasins and specially designed accessories. This gives you design freedom, thanks to which the composition of bathroom furniture will be tailored to the surface and individual preferences.

In UNI collections, the selection of legs depends on the selected washbasin. For compositionWe use legs with a countertop washbasin23 cm high, and for the compositionwith a furniture washbasin, legs 33 cm high.

BRYLANT

UNI
collection

The beauty of the BRYLANT collection will be appreciated by supporters of minimalist solutions and intriguing details. The horizontal arrangement of shapes is emphasized by clearly marked edges and delicately milled handles, which add subtle sophistication to this visually modest collection.

beauty of clean geomery

Supporters of comfortand spacious solutions, they will certainly appreciate the possibility of combining different sizes of BRYLANT cabinets under a common countertop. The beauty of the collection's geometry creates a modern compositionand very comfortable. This configuration can be complemented by any countertop washbasin.

UNI add-ons

towel rail

A towel rail, installed under the countertop, is visually light and very convenient, thanks to which the towel will always be at hand. This accessory is made of lacquered metalin the most popular furniture colors: white, black, sandand navy blue mat.

UNI
countertops

For all widths of furniture from the UNI collection, we offer, in addition to the possibility of installing furniture washbasins, also carefully designed countertops. A wide range of finishes and sizes make it suitable for any arrangementwith countertop washbasins The user will find a solution for themselves. We especially recommend manufactured countertopsmade of solid, oiled oak wood. We add cutout care to each countertop packageand surface. The oil can also be purchased separately for recommended annual maintenance.

UNI
legs

In the case of light, e.g. plasterboard bathroom walls, we recommend using UNI platform furniturewith universal legs. Each leg can be adjusted by approximately 1 cmin order to compensate for any unevenness of the ground. We offer two leg heights- adapted to all potential installation situations in ORiSTO UNI furniture. For low furniture washbasins such as AMELIA, BERYL, JOY or CERA, you should choose a leg with a height of 33 cm. For countertop washbasinsand tall furniture washbasins- e.g. BOLD- due to their greater height, we recommend matching them with legs22 cm high. When installing the legs, the upper surface of the washbasin is approximately 87 cm high and may vary slightly depending on the specific washbasin model.

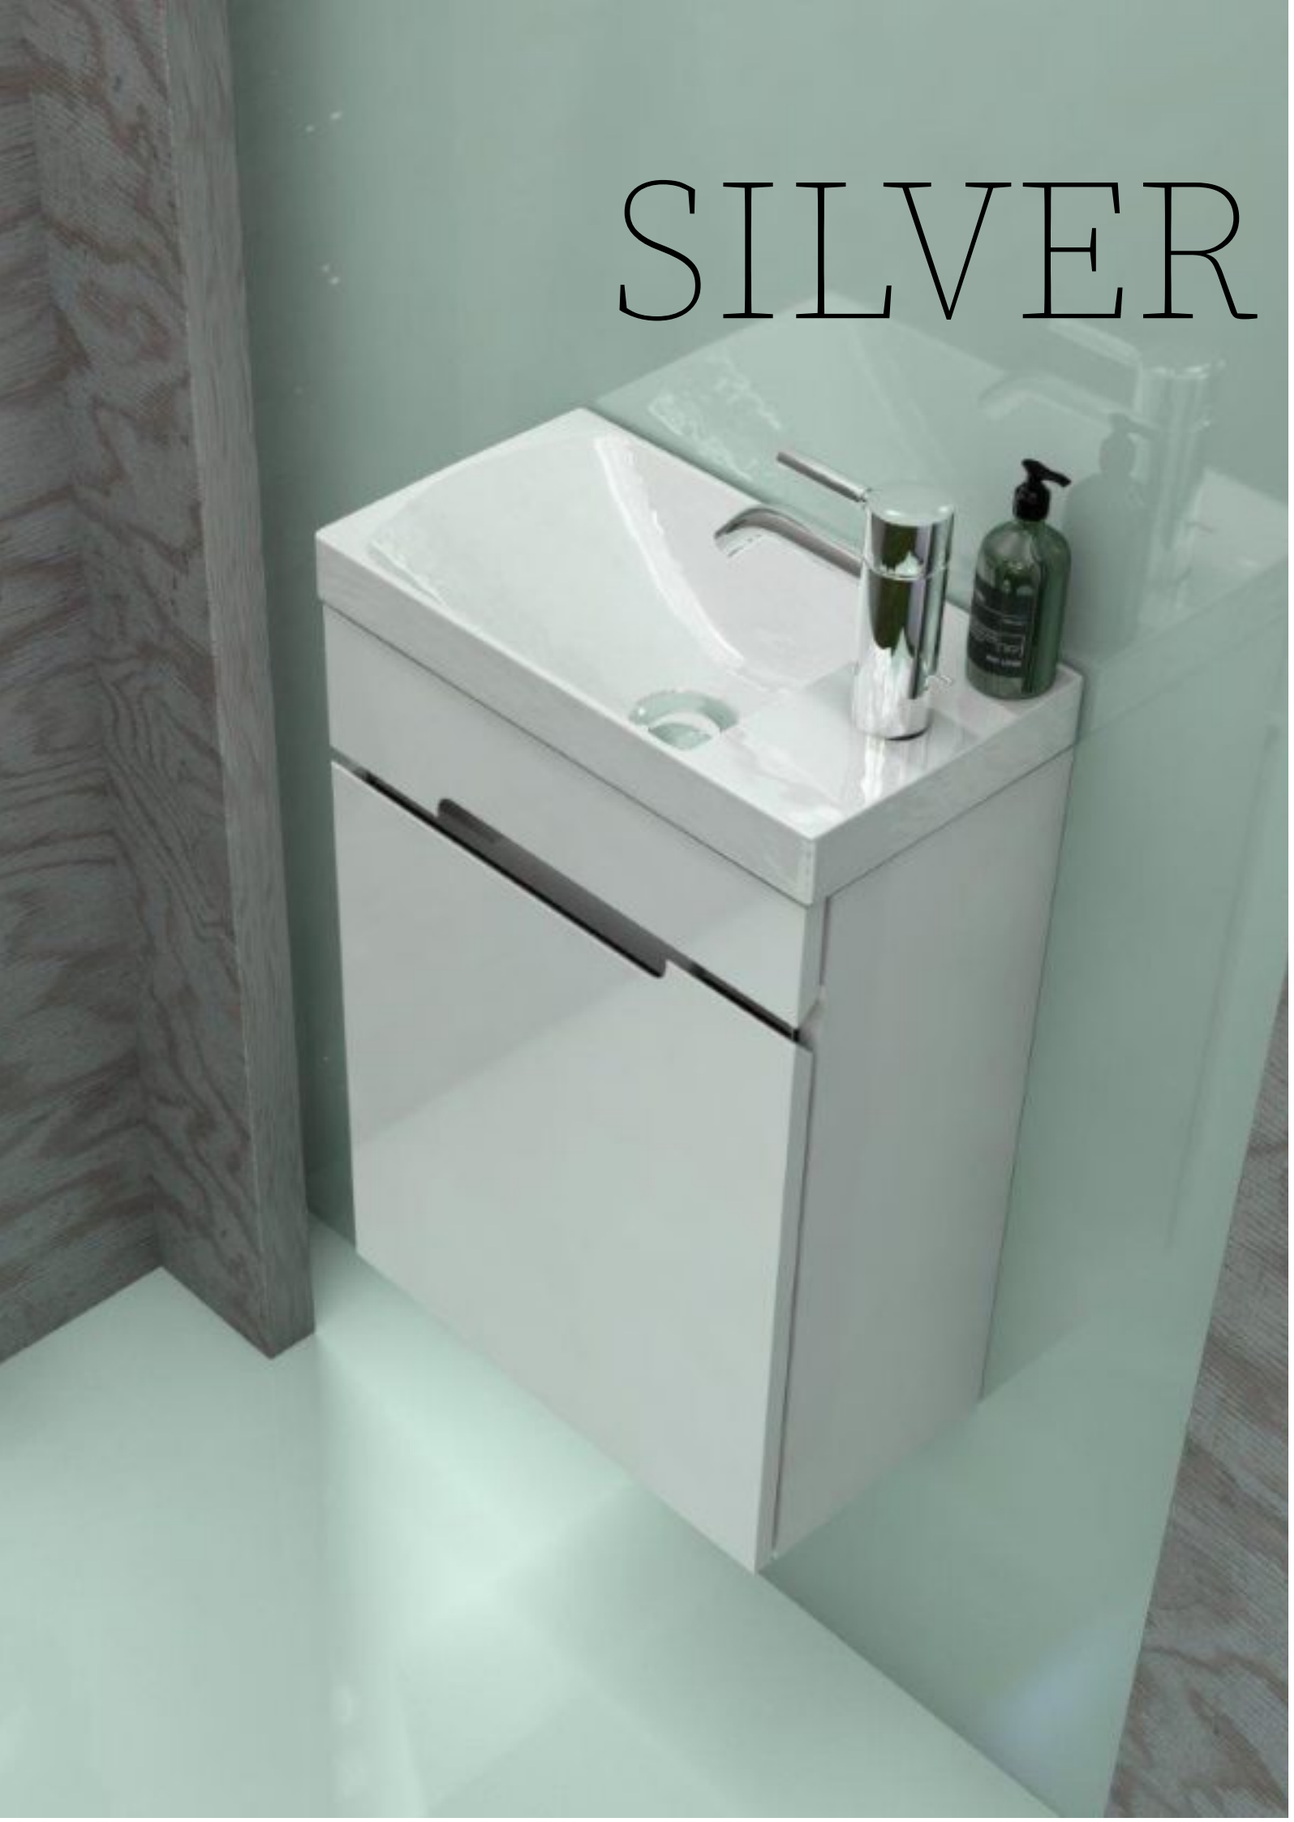

Despite the installation of legs, it is necessary to fasten the furniture to the wall. Unsecured cabinets may fall over when the drawer is pulled out.

ORISTO

MINIMA

collections

SILVER

MINI
collection

Small bathrooms require smart and functional solutions. The set is designed in the SILVER design linein two width variants: 40 and 55 cm. A perfectly matched small MINI washbasin with such a small size maintains the highest comfort of use.

ELLA

hidden storage

The 55 cm wide set includes a hidden toilet paper compartment and a toilet brush attached to the cabinet. The side of the set is opened using the push-to-open principle. The insides of the cabinets are mademade of metal and protected against dirt with powder varnish.

SIENA

MINI
collection

One of the most popular collections in the MINI version is a combination of sophisticated design with the functionality of solutions dedicated to small, intimate bathroom spaces.

perfect match

When designing a bathroom, the most important thing is a perfect fit. The geometry of the MINI washbasin and its depth perfectly match the design of the furniture, thus facilitating maximum cleanliness- on the walls and on the furniture.

see/saw

The 55 cm wide set allows you to hide what should not always be visible.

We have designed a storage compartment for the toilet brush and toilet paper that allows you to hide such accessories, leaving space for what you want to remain visually uncovered.

ORISTO

STANDARD

collections

OPAL

STANDARD
collection

OPAL is a compact collection equipped with curved, curved fronts. This technology, requiring the highest skills, allows you to close the spacious drawer space in a visually attractive form. High-quality handles are available in three colors: chrome, white and black.

compact solution

Thanks to its shape, perfectly fitting synthetic washbasin and the possibility of corner installation, the washbasin cabinet is also perfect for small bathrooms.

The OPAL collection is complemented by practical side cabinets. Their small size makes it easier to arrange the bathroom freely. Varied drawers, equipped with permanent structural organization elements, allow you to sort accessories and facilitate access to stored items.

SILVER

STANDARD
collection

The SILVER bathroom furniture collection is a stylistically expressive solution combining simple, white lacquered fronts with a milled handle and a visible, decorative, chrome strip.

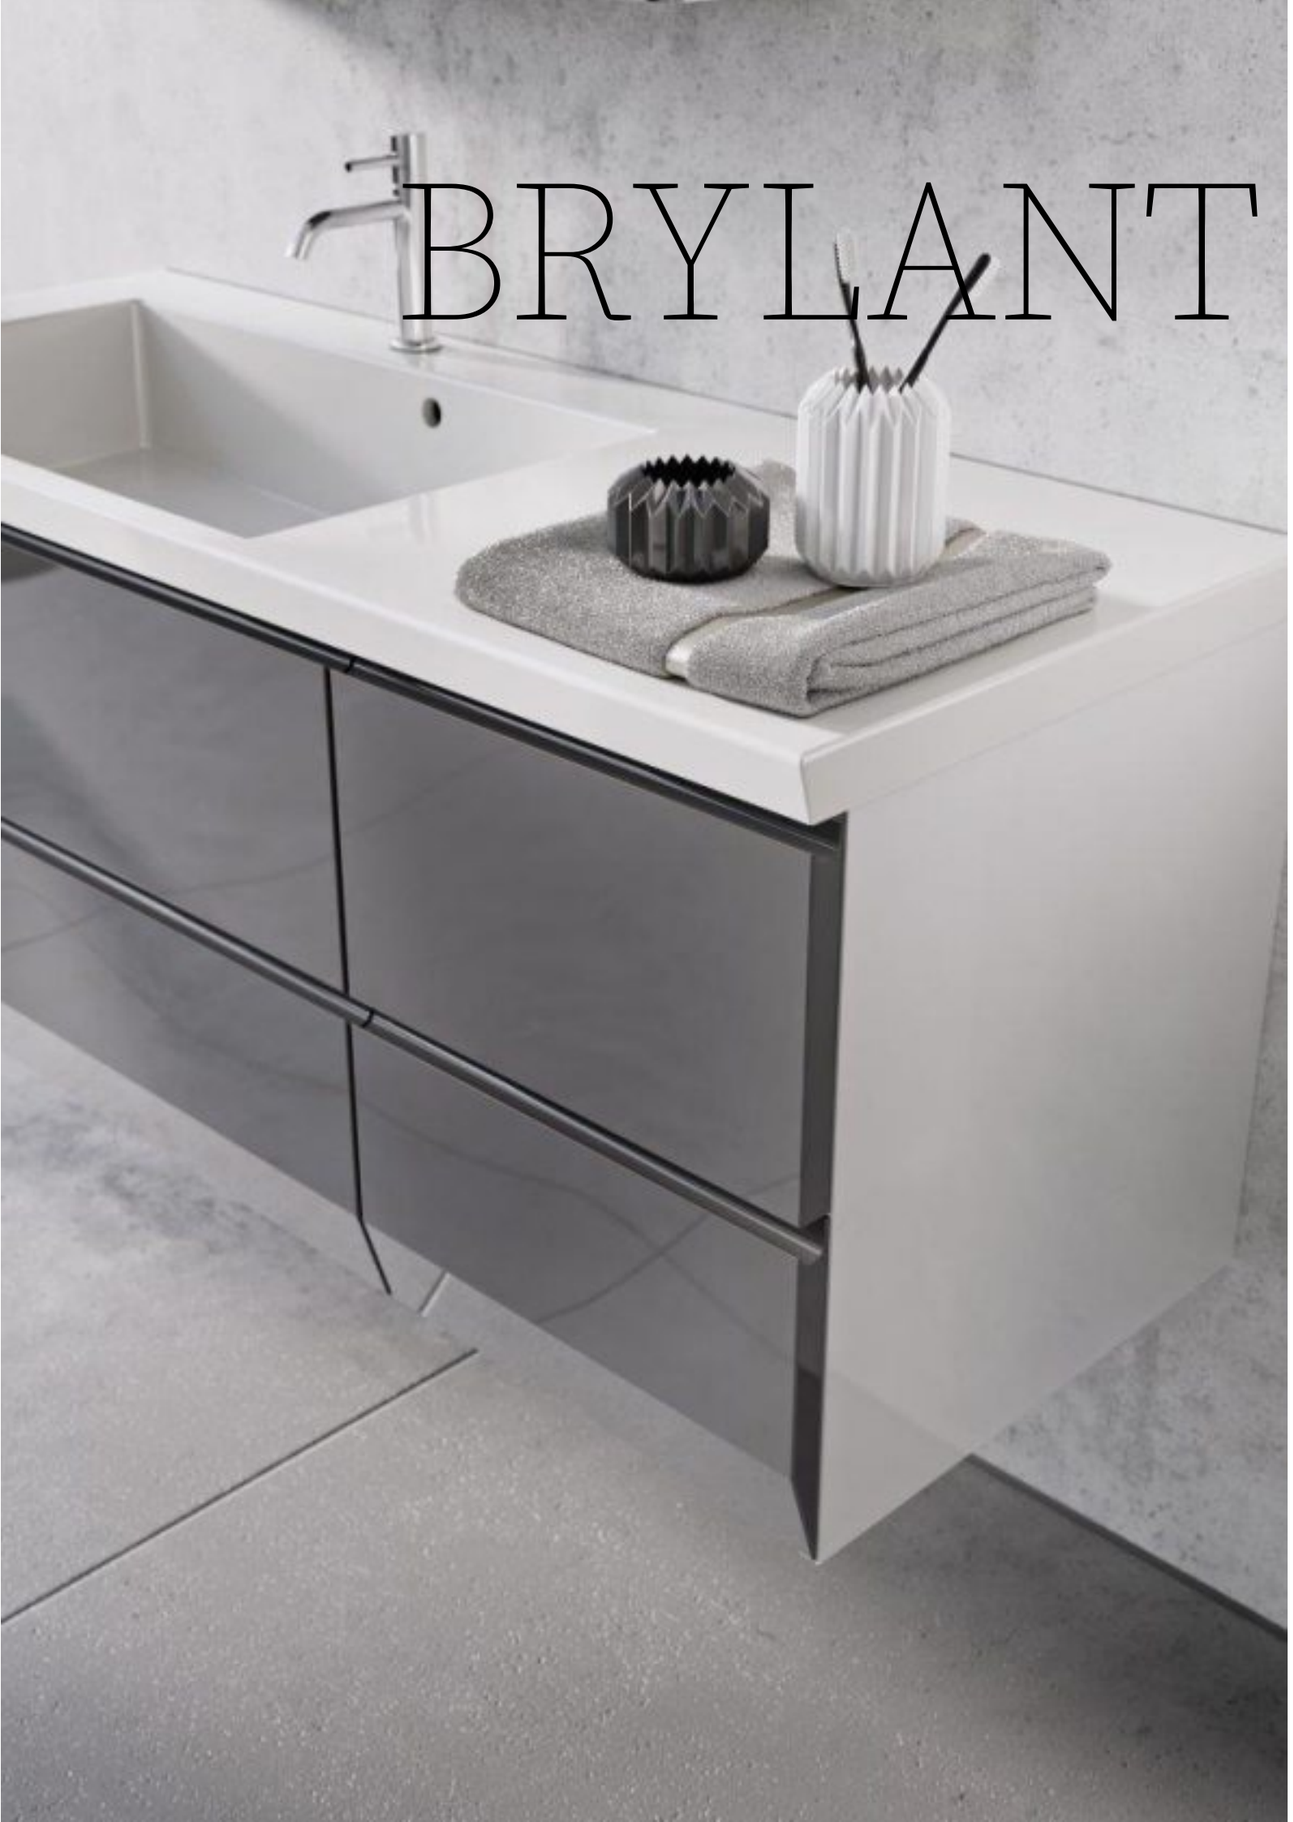

wide scope of models

A wide selection of shapes, including side cabinets with a laundry basket, integrated double side cabinets or a variant of a narrow hanging cabinet for the space above the toilet, make it easier to arrange even the most demanding bathroom.

BRYLANT

STANDARD
collection

Clear edges of the shapes highlighted with dynamic, diagonal accents, strong and decisive geometry of the form- these are the characteristic features of the BRYLANT bathroom furniture collection.

BRYLANT washbasin cabinets can be combined with side cabinets and covered with common washbasins125 cm wide. Thanks to this, we gain a set of four drawers of different sizes and a large countertop surface on the washbasin.

NEO

STANDARD
collection

An intriguingly simple and minimalist mirror.
The details of the narrow frame, enclosed in
a delicate form, are composed with the mirror
surfacein perfect proportions.

NEO 2 mirrors

NEO 2 means reduced style, precision of workmanship and a noble finish in the popular and fashionable matte black decor. Intriguingly simple.

NEO
mirror
cabinets

This is a collection for interior connoisseurs who will appreciate minimalist design and the nobility of materialsand thoroughness of the design solutions used. NEO mirror cabinets delight with their interior and the quality of details. All mirror surfaces are delicately milled on the edges, which gives the cabinets a feeling of lightness and elegance.Freedom of arrangement is ensured by sliding, elegant glass shelves and dedicated accessories.
